

### Certificate of Origin

Bovine Spongiform Encephalopathy (BSE)  
Transmissible Spongiform Encephalopathy (TSE)  
Genetically Modified Organisms (GMO)

ITEM NO	DESCRIPTION	CAS	Batch
BM1701	5,12-bis(4-(tert-butyl)phenoxy)anthra[2,1,9-def:6,5,10-d'e'f] diisochromene-1,3,8,10-tetraone and 5,13-bis(4-(tert-butyl)	192126-74-2-- -1225577-22-9	M17011701

No animal, human, plant, or animal/human/plant-derived products are utilised in the manufacture of these Boron Molecular compounds. At no time are these compounds in contact with the above products. All compounds are purely synthetic and are for research and development purposes only.

Therefore the product list above is:

Bovine Spongiform Encephalopathy (BSE)  
Transmissible Spongiform Encephalopathy (TSE) and  
Genetically Modified Organism (GMO)

issue free.
